Palma de Mallorca, 10 de agosto de 2021

Distinguished President,

As we do every year, we contact you again to remind you that for 3 years we have been celebrating International Dyslexia Day on October 8.

In addition, last year we had the honor of having the official support of the Organization of Ibero-American States, many countries that joined as the State, Parliaments and numerous City Councils, who made statements in favor of our group.

One more year we turn to Your Institution to join our map of entities that collaborate with the Campaign "United for Dyslexia" (www.infodislexia.com) that aims to make Dyslexia and other Specific Learning Difficulties visible, affecting more than 10% of the world's population and being so unknown today.

Although on October 8 the objective is for the world map to light up the color of dyslexia (Turquoise), we are delighted that each Institution is collaborating with the Campaign to the best of its ability. All actions are very welcome and from now on, we appreciate your willingness.

In addition to a protocol note with some important information about the campaign, we attach some of the letters of support that our Organizations have at the International level. It would be great to have a similar letter of support also from Your Institution for Declaration at the United Nations. We provide the number +34 677 960 960 and the email comunicacion@presidencia.dis.es for any clarification.

With the conviction of having Your collaboration, I bid farewell with the assurance of my highest consideration.

Iñaki Muñoz
Presidente de Disfam y OIDEA
